

THE NURSE & HEALTHCARE WORKER ENDURANCE PACKAGE

**YOUR SHIFT IS DEMANDING. YOUR FOOTWEAR SHOULD
BE READY.**

\$497 | Comprehensive Footwear & Orthotic Support Package

Built for 12-hour shifts on hard hospital floors.

Long shifts. Constant movement. Hard floors. Your feet are working overtime.

Whether you're a nurse, medical assistant, technician, therapist, or another healthcare professional, your workday demands more from your feet than the average day.

The right footwear and support can make a meaningful difference in how prepared you feel for the demands of your shift.

At Foot-Fit Expert, we bring professional footwear fitting, custom orthotics, and compression essentials together in one convenient package, designed around the demands of healthcare work.

EVERYTHING YOU NEED TO GET SHIFT-READY

01 | Slip-Resistant Work Shoes

Start with work footwear selected for your needs, with slip-resistant features and a fit designed to support the demands of your work environment.

02 | Custom Orthotics

Go beyond standard insoles. Your custom orthotics are designed around your individual foot needs, providing personalized support within your work footwear.

03 | Two Pairs of Compression Socks

Add compression to your workday wardrobe with two pairs of compression socks selected to suit your needs and preferences.

04 | Professional Fitting & Adjustments

Your package includes professional fitting and adjustments to help bring your footwear and orthotics together for a more comfortable, functional fit.

WHY YOUR WORKDAY DESERVES THIS LEVEL OF ATTENTION

Your feet carry you through every patient, every room, and every demanding hour.

When your work requires hours of standing and walking, choosing footwear based on appearance or size alone may leave important fit and support needs unaddressed.

The Endurance Package takes a more personalized approach:

- **A fit tailored to you:** Professional guidance helps you choose footwear suited to your feet and work demands.
- **Personalized support:** Custom orthotics provide an individualized alternative to relying solely on standard insoles.
- **A complete footwear solution:** Shoes, orthotics, compression socks, and fitting support are brought together in one package.
- **Expert guidance:** Work directly with a Board-Certified Pedorthist who understands the relationship between footwear, foot function, and everyday mobility.

MORE THAN A PAIR OF WORK SHOES

At Foot-Fit Expert, the goal is not simply to sell you another pair of shoes.

It's to help you find the right combination of footwear and support for the work you do.

With over 22 years of clinical Pedorthic experience, Michael L. Ashley, C. Ped., provides personalized footwear and orthotic solutions for healthcare professionals throughout Cedar Hill, Southwest Dallas, and the greater DFW area.

READY TO MAKE YOUR NEXT SHIFT FEEL MORE SUPPORTED?

Start with a FREE 15-minute phone consultation.

Let's discuss your workday, your footwear concerns, and whether the Nurse & Healthcare Worker Endurance Package is the right fit for you.
