DFW Diabetic Foot Protection

Custom Orthotics, Safe Footwear & Preventive Care for Patients Across Southwest Dallas

Living with diabetes means your feet need more than attention, they need **protection**. Reduced sensation, circulation changes, and pressure points can lead to serious complications, but most issues are preventable with the right footwear, support, and follow-up care.

How We Help

- Diabetic & therapeutic shoe fittings
 - Pressure-relief inserts & custom orthotics
 - Footwear modifications to reduce friction and shearing
 - Post-wound or post-amputation footwear guidance
 - Education on daily foot checks & skin care
 - Custom footwear options designed specifically for people with diabetes
- Our approach is proactive, practical, and personal, whether you're newly diagnosed or managing long-term complications.

Why Foot Health Matters

- Up to **1 in 4** people with diabetes will develop a foot ulcer.
- Proper footwear and offloading can reduce risk by **50% or more**.
- Many injuries occur silently due to reduced sensation.
- Every **20 seconds**, someone loses a limb due to diabetes-related complications, but early intervention prevents most cases.

South Dallas, Cedar Hill, DeSoto, Duncanville, and Lancaster face disproportionately high diabetes rates. Local action saves limbs and lives.

Diabetic-Safe Footwear Packages

Professionally fitted, medically safe footwear and orthotics designed to reduce risk and support mobility:

- **Diabetic Sneaker Support Package**
- **Diabetic Casual Comfort Package**
- **Charcot Foot Safety Package**
- **Amputation Protection Package**

HSA/FSA eligible. Itemized documentation provided for insurance reimbursement.

Partnering With Providers

We collaborate with wound care clinics, endocrinologists, primary care teams, home health, and podiatry professionals. Referrals are welcome but not required.
